Heartland Counseling Transforms Therapy Space to Enhance Child-Friendly Play Therapy

Heartland Counseling Services is delighted to announce the successful completion of a transformative project aimed at creating a more welcoming and child-friendly therapy space. This initiative was made possible through the generous support of the Siouxland Community Foundation's Fund for Siouxland.

Heartland's goal was to revolutionize one of its therapy rooms into a safe and inviting environment resembling a playroom, tailored specifically for the needs of young children undergoing counseling. The project involved the acquisition of comfortable seating, age-appropriate toys, and engaging activities to facilitate evidence-based play therapy. The therapy space has been optimized to create a warm and secure environment, enhancing the effectiveness of play therapy sessions. This transformation has significantly increased accessibility, allowing Heartland to serve a larger number of children and meet the unique needs of our community's youngest and most vulnerable population.

Heartland extends its sincere gratitude to the Siouxland Community Foundation's Fund for Siouxland for their generous support, which played a crucial role in the successful execution of this project. The funding provided by the foundation empowered Heartland to acquire the necessary furniture, toys, and games, ensuring a seamless and timely implementation.

Heartland Counseling is a nonprofit organization providing quality mental health and substance abuse services and education for all ages in the tri-state Siouxland community and lives by their motto: "Changing lives. Healing hearts. One day at a time!" For more information on Heartland Counseling Services, how you can receive mental health or substance abuse services, or how you can donate or to help others in their journey to positive mental health, visit www.heartlandcounselingservices.org or call 402-494-3337.
